

Boost your sales by Direct Emails to Professionals

Finnish Chemical Magazine and Finnish Circular Economy News E-newsletters provide an excellent option to reach professionals in respective fields. We now offer you an opportunity to promote your products and services to the subscribers of both newsletters by a direct email.

In a direct email, the whole message is reserved solely for you. The headline, text, links, logos, and layout will be drawn up according to your wishes and the email delivered on the desired date.

Direct e-mails to newsletter subscribers

- E-mail recipients are over 4,600 professionals and decision-makers in chemistry and related fields.
- Message opening average is exceptionally high: 27%.
- Price EUR 1,390 includes follow-up report with opening and clicking data.
- List of the clickers' domains for extra charge EUR 50.

"Direct e-mails are an effective supplement to the rest of our marketing. Through the e-mails, we reach new contacts, and are very satisfied with the results."

Anu Jauhiainen, Marketing Officer, Taitotalo

Share your direct e-mail with Finnish Circular Economy News or TTT Magazine readers!
